##### 2. Public Safety Camera Trailers

*Public Safety Manager Edson provided an overview of the staff report and recommended that the City lease three public safety camera trailers for a 12-month period at a cost of \$82,468, rather than purchasing them outright. Manager Edson explained that because the technology is new and rapidly evolving, leasing allows the City to test the program before making a long-term investment. He noted that the trailers have proven to be effective crime deterrents and reported that other*

*cities using similar trailers have expressed satisfaction with their performance, with no complaints received.*

*In response to concerns about potential damage to the trailers, Manager Edson clarified that the lease cost includes repairs and coverage for any damages incurred.*

*Additional discussion was held regarding Deputy and Community Service Officer (CSO) coverage and services. The placement of the trailers would be guided by a "heat map" to identify areas with the greatest need for enhanced public safety measures.*

*Committee Member Grajeda moved, and Committee Member Rendon seconded, to acquire the public safety camera trailers and recommend inclusion of the associated costs in the Fiscal Year 2024/2025 Public Safety budget to be presented to the City Council for approval.
