Comments:

We will install a new York 95% efficient FAU a horizontal evap coil in the attic over a secondary drain pan. We will supply and install discharge and return plenums and insulate. We will install venting, run drainage, line set and cover. We will hook-up FAU to supplied electrical and gas.

We will install 6 new supply duct runs and one new return. All ducting and plenums will be sealed to modern standards.

We will install a 14 SEER York AC unit on supplied platform. We will run electrical from panel, install a disconnect and hook-up electrical to condenser. We will install a Honeywell T6 pro thermostat. We will commission the furnace and AC unit and balance airflow as needed.

Estimate includes labor at prevailing wage rates, taxes, and all materials needed to complete installation.

Subtotal: \$ 16,190.00

Estimate Amount \$ 16,190.00

Estimate excludes; plumbing and electrical not included in estimate, change orders which will be quoted and signed for if needed, any fees required by the state, county, or city to obtain permits, or any engineering, air balancing, HERS testing, lift or tool rentals if required.
