

Partnerships EMPLOYMENT POSSIBILITIES

Fact Sheet

Lincoln Training Center (LTC) is a not-for-profit, 501c (3) organization based in South El Monte. Since 1964, LTC has progressed from a small group of parents teaching their sons and daughters simple production work to an accredited, award-winning organization helping hundreds of adults with disabilities and service disabled veterans throughout California find meaningful work.

Today, LTC continues its mission to provide work opportunities and job training through an array of job programs. In our base program, workers perform assembly, disassembly and light manufacturing contracts, which are fulfilled at our 32,000 square foot facility.

All workers are paid according to their participation and productivity. LTC provides vacation pay, bonuses, workers comp benefits, social activities, work preparedness, and transitional training.

Our Supported Employment program places eager and qualified workers into community job settings. We are currently contracting with more than 100 off-site employers for jobs that include janitorial, landscaping, inventory control, packaging, retail, and clerical. Lincoln now has satellite offices in Northern, Central and Southern California.

Lincoln is proud to have been awarded a CIMS (Cleaning Industry Management Standards) certification. This is a high achievement that attests to our commitment to quality. We also have a State of California Contractors license with a C27 landscaping designation.

LTC's newest program offers training and job placement for service-disabled veterans.

In 2017 LTC was awarded the highest accreditation from the Commission on Accreditation of Rehabilitation Facilities (CARF).
