All Directors and
Alternate Directors
County Sanitation Districts
of Los Angeles County

Dear Directors.

Certificate of Recognition for Qualifying Industries

The Sanitation Districts have a special "Certificate of Recognition" Program, which is honoring 391 industries that have been in full compliance with all Sanitation Districts' industrial waste requirements for the 2018 calendar year, including 82 who have remained in full compliance for five or more consecutive years. The enclosed news release and industry list by city of location will be sent to news outlets and major newspapers throughout Los Angeles County. We expect all inquiries to come to the Sanitation Districts' staff (as listed contacts), but we wanted you to be aware of the Program and the companies that were awarded certificates.

This is the twenty-third year of the "Certificate of Recognition" Program. It has been well received by the industrial community and we hope that it encourages industries to make the effort to be on the Sanitation Districts' "Good Corporate Citizens" list and receive one of the Sanitation Districts' Certificates. The Program applies to approximately 958 facilities that are significant industrial users of the Sanitation Districts' wastewater management system.

In recent years, several cities have joined the Sanitation Districts in honoring the industries receiving the certificates within your jurisdictions. If you would like to honor the industries receiving certificates in your District, the Sanitation Districts will be happy to provide you with any additional information you may need.

The program was initiated by the Sanitation Districts' Industry Advisory Council, which is made up of representatives from our user industries. The Council felt that the program would promote the good news of industrial compliance to the public.

If you have any questions about the Program, please feel free to call Jyoti Banaji, Senior Engineer at (562) 908-4288, extension 2906 or e-mail to jbanaaji@lacsd.org.

Very truly yours,

Robert C. Ferrante

INDUSTRIES HONORED FOR BEING "GOOD CORPORATE CITIZENS"

Whittier, California – Today, the Sanitation Districts of Los Angeles County recognized 391 companies with certificates for being "good corporate citizens" for the year 2018. These companies have met their limits for wastewater discharge for at least a year, maintained their environmental equipment and fulfilled all permit requirements. Of these companies, eighty-two have received this recognition for five or more consecutive years.

"The Sanitation Districts continue to partner with our industrial dischargers to ensure their wastewater meets or exceeds environmental regulatory requirements, helping to further protect public health and the environment," remarked Robert C. Ferrante, Chief Engineer and General Manager of the Sanitation Districts. "It's important to recognize their efforts in being good stewards of our environment. Effectively pretreating their wastewater helps the Sanitation Districts efficiently operate our wastewater collection and treatment systems, which reduce operating costs that benefits all our ratepayers." Mr. Ferrante announced the certificate awardees at the meetings of the Sanitation Districts' Boards of Directors.

"Industries in Southern California are committed to reducing their impact on the environment. These awards recognize the significant efforts by the industries in making environmental stewardship a priority," said Sam Bell, owner of Metal Surfaces, Inc., of Bell Gardens and chair of the Sanitation Districts' Industry Advisory Council. "The annual award provides recognition to industries in Los Angeles County, who, through consistent compliance with environmental regulations, have helped conserve our limited water and energy resources."

The idea for the Certificates of Recognition originated with the Sanitation Districts' Industry Advisory Council, an advisory group of currently 13 representatives from different industrial sectors. The Council and the Sanitation Districts felt it was important that industries with good compliance records be recognized. The Recognition Program is now in its twenty-third year.

"These Certificates of Recognition awards are more than just an acknowledgement of regulatory compliance. The program develops a relationship with our industrial dischargers wherein the Sanitation Districts can share our mission of 'Converting Waste into Resources' and improving our environment for everyone," added Linda Shadler, Head of the Sanitation Districts' Industrial Waste Section.

The Sanitation Districts are a regional public agency consisting of 24 independent special districts serving over 5.6 million people in 78 cities and unincorporated territory within Los Angeles County. The Sanitation Districts protect public health and the environment through innovative and cost-effective wastewater and solid waste management and, in doing so, convert waste into resources such as recycled water, energy and recycled materials.
