Director of Administrative Services and City Clerk Shumway read a comment from Danny Meza opposing the project and asking to delay and final decision on this

project.

Director of Economic Development and Planning Jimenez provided an update on this item. According to Director Jimenez, nine units were set as affordable housing units and will be conditioned as part of this proposal. In order to make this community a gated community, some of the planned parking will be lost, and the recommendation was to install the security system/cameras.

Discussion took place regarding the affordable housing policy in place and how those units will be given out. According to Councilmember Argumedo, the lottery system would be the fairest system.

Mayor Pro Tem Rebollo stated that it might seem that the nine units may not be a large number, but it is a beginning, and the City is looking to bringing more developments to the City.

Councilmember Mendoza stated that not all concerns are addressed, and using Code Enforcement for this project would not work. Other developments do not allow jurisdiction for the Code Enforcement. Councilmember Mendoza asked that the City Council does not rush the process and be as transparent as possible.

Councilmember Sori stated that this project has been in the works for a long time and has always been transparent. This project was brought forward by the direction of the City Council, and they approved the Purchase and Sale agreement. There are challenges within the community, and those issues existed prior to this project. This is a quality project and would benefit the community.

City Manager Cisneros explained that since the garages would be possible to see, Code Enforcement would step in if HOA is not enforcing the use of the garage for intended purposes.

Kim Prijatel, Vice President of City Ventures, spoke about the security system and affordable housing that was negotiated. Additional discussion took place about landscaping, and possibly having tall trees serve as a barrier.

City Manager Cisneros stated that staff would come back with the program of how affordable units would be decided on. As far as a design element, City Manager Cisneros stated that conditions should be included as part of this Agreement that

will be decided upon today. Adjustments for the security cameras and garages being visible is already included as conditions in the Agreement. Landscaping could be added if requested.

Following discussion, whether modifications could be done to the project if the Agreement approved today, Assistant City Attorney stated that the resolution has a specific condition when the Director of Economic Development and Planning has an authority to approve minor modifications to the approved project, and condition #27 allows for landscaping plans to be submitted separately at a later date.

City Manager Cisneros also added that the Director of Economic Development and Planning could come back to Council if there are any problems. According to Assistant City Attorney Copado, condition#30 applies when the developer is not adhering to those conditions or approval or requirements outlined in the Agreement, then the City has the enforcement ability to bring it to the City Council. However, any conditions of approval should be done at this point.

Mayor Pro Tem Rebollo moved, seconded by Councilmember Soria, to consider overturn the Planning Commission's Decision to Deny Plot Plan No. 995, Tentative Tract Map No's. 82890, 82891, 82892, by Resolution; acknowledge and approve a Notice of Intent to adopt a Mitigated Negative Declaration; and consider for First Reading, by waiving full reading of an Ordinance approving and adopting a Development Agreement with City Ventures Homebuilding, LLC for the properties located at 5550 Harbor Street, 5625 Jillson Street and 5555 Jillson Street. The motion carried by the following vote:

Ayes: 5 - Councilmember Soria, Mayor Altamirano, Councilmember Argumedo, Councilmember Mendoza, and Mayor Pro Tem Rebollo
